

The Difference Is Performance!

EJECTOR NOZZLE FAMILY

Soft cleaning for fully charged, large sewer pipes!

Ejector Nozzles are suitable for cleaning water-bearing pipes only. The unique arrangement of the nozzle inserts results in the "soft" cleaning effect, which makes the Ejector Nozzles suitable for

cleaning older sewer networks. This nozzle uses the water flowing within the sewer to aid the water coming from the pressurized hose, thus utilizing the advantages of both cleaning methods.

Ejector Nozzle (Small)

APPLICATIONS

- **SANITARY, STORM**
- Slit, Sand and Rock

TECHNICAL SPECIFICATIONS

- For Pipes From 15" and Up
- Comes with (1) 1" HP Swivel
- Comes with Ceramic Inserts
- Includes:
