

Channel Cleaner is KEG's latest product innovation: our channel cleaners specially designed for efficient and trouble-free cleaning of channels from 90 - 200 mm in width.

## ADVANTAGES & APPLICATIONS

- Efficient cleaning nozzle for increased water flow and better transport of deposits from the channels
- Less staff required for cleaning, as no water sprays on top of the drainage area
- Large version infinitely adjustable in width to fit channels from 150 - 200 mm
